From idea to *delivery*

Quick & straightforward

Our ready-to-order collection is the fastest and most straightforward way to launch or grow your activewear brand. Every style has already been designed, patterned, graded to international sizes, fit-tested, and cleared for production. Before ordering, we recommend checking our **Size Guide** to confirm the right fit for your market.
It's an ideal starting point for sampling, and an equally strong choice as your first bulk order. You're ordering from designs that are already proven.

Colours
Choose from any of our 85+ in-stock colours — selecting from stock is the fastest route, with samples in your hands in 1–3 weeks, or your bulk order ready in 3–5 weeks. Prefer a specific colour not currently in stock? We can import it for you — just mention it when you enquire.

STEP 01 ## Build Your Collection

Choose from **ready-to-order** styles, submit **your designs**, or do **both**.

Ready-to-Order — Browse and select from **our shop**. Order any style as-is, edited, or as a starting starting point for your own design.

Custom Designs — Send front and back screenshots or drawings with your chosen fabric, colour, and any changes noted. One style per page keeps things clear. We'll follow up before sampling begins if anything needs clarifying.

Mix & Match —Adding ready-to-order styles to a custom order? Include the catalogue style codes in your **email** and we'll handle the rest.

STEP 02 ## Confirm Pricing

We'll send a detailed, all-inclusive quote within **2–3 business days**. What you're quoted is what you pay — no surcharges, no surprises. Pricing is upfront—we never add surcharges.

STEP 03 ## Sampling

Once sampling is confirmed and the invoice is paid, allow 1–3 weeks for your samples to be made and delivered to your door via DHL Express — to any address worldwide in 3–5 business days.

Selecting from our in-stock colours? Super fast, Samples can be with you in as little as 2 to 3 weeks.

STEP 04 ## Bulk Production

Happy with the fit and finish? Approve your samples and move into production. Save time & money by skipping sampling and go straight to bulk. With in-stock colours and pre-graded ready-to-order styles, your completed order can be in your hands in 3–5 weeks — retail-ready, individually packed, labelled, and barcoded, sell from the box.

Not sure where to start or how to place your order?
Get in touch — we'll walk you through everything.
