Introduction

Our Summer 2025 collection is ready to order, featuring best-selling designs and insights into top seasonal trends. Review the styles, note the codes of your favourites, choose your preferred fabric colour or print, and you're set. Each style comes in two fabric options:

- **Comfort Luxe:** Ideal for brands needing flexibility.
- **Eco Olympus:** Designed for greater compression.

Both fabrics are squat-proof, body-sculpting, moisture-wicking, and soft to the touch. They are sourced from the U.S. and Korea. We offer 80 on-trend colours, ready for cutting on demand. Your custom-branded logo will be heat-pressed on the inside back of each piece.

Our fabrics are always fresh—cut and flown in bulk, not leftover stock.

For a closer look at fabric performance, order a [Fabric Swatch pack](#).

Sampling

Samples are assembled in our dedicated samples studio in plain colours only. If you'd like to make some changes to our designs, that's also possible. For example, you can adjust the height of a legging or the depth of a cleavage. All we need is a sketch and some notes. Each pattern edit costs \$30. You're also welcome to mix and match your own designs with ours.

Requesting samples

1. Add your selected codes [here](#) or send via [email](#) or [WhatsApp](#).
2. For mix-and-match or custom design requests, use front and back screenshots or clear line drawings with notes via [email](#).

Upon receipt, we will contact you. Only once we are clear on your requests will we send you a sample invoice. With payment received, on request we provide a 2D mock-up of your styles in the correct colours and or prints, allowing you to review your selections and make any adjustments before sampling begins.

Pro Tip

- Our styles are produced exactly as shown in the catalogue with your selected fabrics and colours. Many of our clients skip sampling and go straight to bulk orders, saving time and money in the sampling process.
- Get pricing sorted first thing. With prices in hand, you'll be able to estimate landed costs, helping you calculate retail prices and profit margins.
- Aim for at least a 3.5X markup on wholesale prices. For example, leggings that cost \$20 wholesale often retail for \$99, and sports tops or shorts at \$15 wholesale typically sell for \$75.

Importing Custom Colours & Prints

If you can't find the colours you love in our stocks, then we import them in 70m lots. Please discuss custom colour and print requests with us before you start.

If prints are your preference, we've got you covered. We print all fabrics using Italian [MS machines](#), with weekly shipments ensuring fast turnaround.

Artwork must be submitted in Vector format (EPS, PDF, or CDR) at 300 dpi to scale.
