Spring Summer - 2021

ACTIVEWEAR BALI

How to

create your own sustainable active-wear line

select your fabrics & colours

Create a dummy order & know your investment

sampling & production lead times

select your accessories & create a brand logo

"We are here to assist. Any questions, at the back of this catalogue you find all our contact details. Ready to get started?"

Create your own activewear line

Thanks for downloading our guide. Enclosed you find a good brief on how you can get started, not only quickly but in a way that will compete up against almost any well-know brand you can find today. Flick through this booklet & read about our fabrics, best selling designs, accessories packaging shipping & how we assist with delivery to your door.

As you may know, sustainable, earth-friendly active-wear is supper hot right now with online brands literally selling out as fast as we can stock them, not in all cases but in many, far more than before COVID.

You will find the best selling designs of late 2020 as well as the ones that we know from incoming sales what is going to be hot in 2021.

Take note. Any design can be made in any fabric, colour or print. You can also add some of your own designs making your collection totally unique & right for your market.

Near the back, your find a size guide. These sizes are body sizes & have proven to be the best for the fabrics we offer. You may grade up or down to suit your custom base to ensure the fitting fits your customer base.

We aim to be as flexible as possible accommodating wishes & are always here with a great team of English-speaking ladies ready to take your call or chat via WA.

Selecting fabrics colours & prints

The key to working fast to market, in an organic manner is being able to order from fabrics & colours that are freely available. As we import mostly all of our fabrics, this means that any not held in stock will take from your PO approx 4 weeks to bring in. This doubles your production time & could cause loss sales from your bricks & mortar or online store. Not good!

Consider carefully, what you decide today will effect your timing & turn around considerably

A – MOQ 20m per colour. Stocks fabrics are exactly the same as imported fabrics, not left overs. We cut & sew orders with weekly uplifts from overseas direct to our facility. Fast to produce, in most cases 4 weeks ready to uplift to any overseas address. See our [Stock Fabrics](#)

B – MOQ 70m. Allow an additional 4 weeks to import, 10 weeks in total any order goods ready for despatch

The main advantage of importing is there are many more colours. You may also require printed fabrics. As 90% all our print is handled digitally on REPREEVE , a super soft American fabric, printed overseas.

How to get started

Once you have gone through the guide, first step is to get your collection priced. All we require are your designs to be made in which fabric. Anything other, we will go over after you have approved your prices. We also require your logo & layout for the heat press which will be pressed into the back of each piece. We can assist you with this on request.

Getting Priced – Handover

Our designs here

Your designs here

We will check all your designs & notes to ensure all is clear & understood. In max 3 working days you will receive back the very best bulk wholesale price for the highest grade of product of any supplier in Bali.

Example handover [here](#)

Keeping within budget – Know the MOQ

We offer a low MOQ of 300 pieces, up to 10 designs, 30 pieces per design & 3 pieces per colour & size. We can produce any order up to 15,000 pieces with fabric in hand in less than 6 weeks.

To know your total spend, add the designs you like from our catalogue into a dummy order form. Then add the prices & how many pieces you want to order to know the total investment your likely looking at.

Download our [dummy order form](#) & fill in your amounts. You will now know what your total spend is.

NOTE

Approx retail sell price – Shorts & Sports Tops \$65 to \$79 – Leggings \$99 to \$119

Select your accessories & create a brand logo

All designs will require branding, your logo, washing instruction & size. We include this in our costing as well as any other none branded accessories. For example – metal hardware, one branded heat press, hygienic sticker, all are included in your estimate price.

All items are then individually packed in a bio-degradable bags, offering a zero waste option, Any branded accessories you require, will be calculated on order. Anything other than shown on our website, will most likely require to be imported.

See the [Accessories page](#) on our website

Download how to create your heat-press [here](#)

If you have some speciality hardware you wish us to import, then contact us in order we can discuss cheapest & best way.
