

Heatpress Order Form

Below, on the next page, there is a Tick Box that you can use to select the colour, size, fabric & template you would like to use. We can also use almost any layout you wish to use also.

The importance of a heat press handled prior to production commencing & cannot be overstated. Heat press is used in 90% of cases, compared to labels. We add a heat press to your samples using our small in-house machine for your approval in both content & layout. In some cases, these may flake or crake. All bulk orders heat presses are imported from the same factory that produces for brands such as Victoria's Secret & PE Nation. We require three weeks to arrive in Bali, so always best to send us your artwork before the date your production is about to start.

MOQ - 480 labels up to 5 sizes.

Tick your selected symbols

The majority of brands use the symbols below. If you have your own, please provide.

HAND WASH

DO NOT BLEACH

DO NOT WRING

DO NOT TUMBLE DRY
