ACTIVEWEAR BALI

YOUR OWN BRAND IN 4 WEEKS

Our latest collection was assembled from known, best-selling shapes trending well into the summer of 2022, moving into Spring 2023.

See our collection in video format [here](#).

Note

What you see in the video link above is exactly what you will receive.

If you would like to read more about adding your own custom designs, custom prints or place your order direct to bulk, saving time in sampling, then read more in our [Ready to Go Designs page](#).

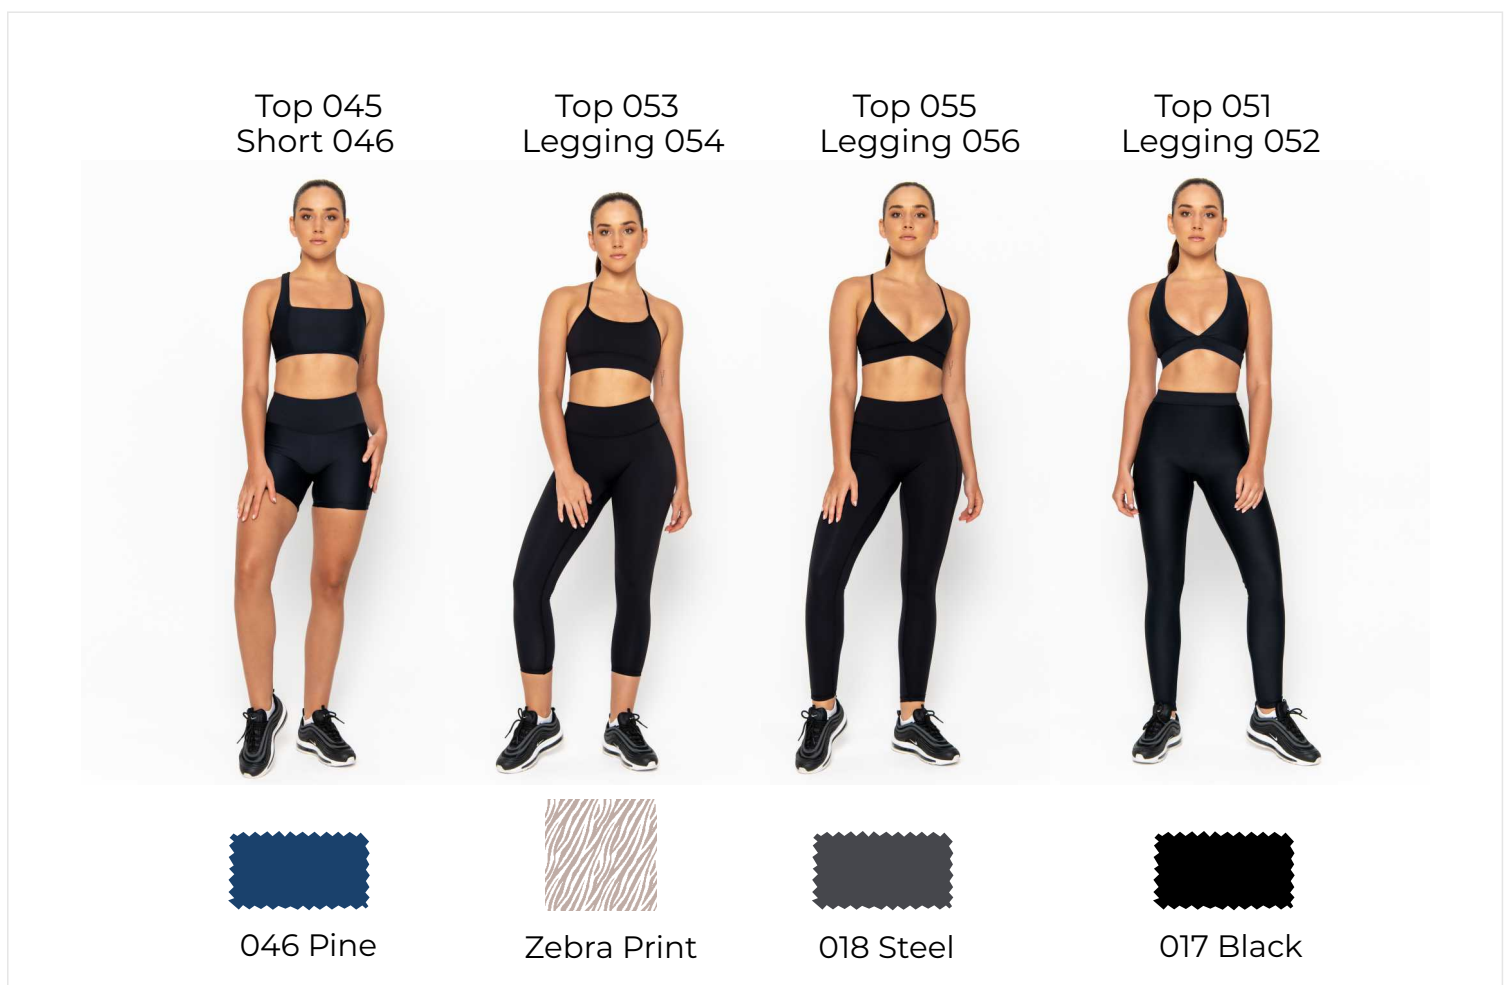

How to make our Collection yours

To illustrate how you can create your own brand using our designs in your selected colours & or prints, see below.

We selected one pair of training shorts from our collection, four tops and three leggings.

We then mocked them up in a hypothetical request of colours & prints.
The final set of images are the same as the example selection shot on Professional models.

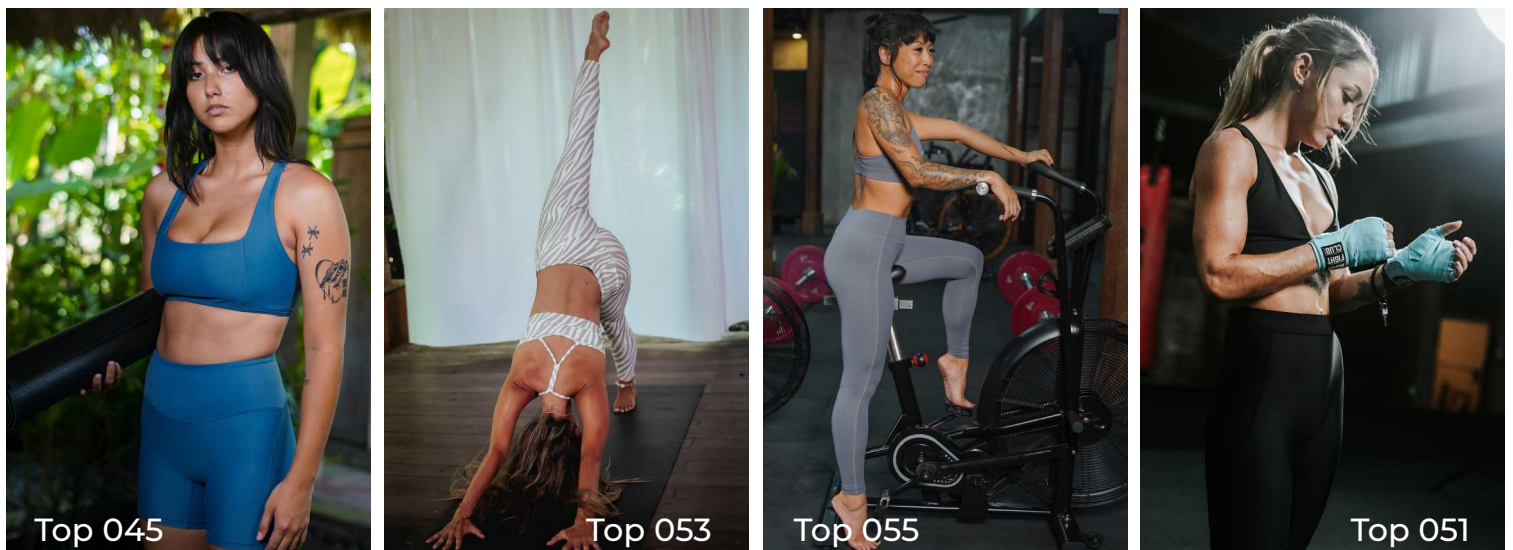

Example Selection

Selection above, Mocked-Up

Photo Shoot Outcome

This could easily be your brand with your selection ready for uplift in 4 weeks. We hope that this example gives you a better understanding of how easy it is to create a sustainable activewear brand from scratch to finish in the shortest amount of time at the lowest all-inclusive prices.

Take Note

To brand your collection, we require your logo, which we heat-press into the back of each item, along with your sizing and washing instructions.

Your logo will also be used to branded elasticated Jacquard, & any packaging requests.

Read how to do so on our [Accessories & Branding page](#).

2-WAYS TO WORK

We offer two ways to send over your selection of designs. With your codes in hand, we only require to know the fabric in plain or print, you want them produced in.

1. By far, the most popular way is to add your selected designs using our codes, adding any notes via our [Bulk Order Form](#) or [Sample Request Form](#).
2. You can send over your selected designs, from our collection or your custom designs or a mix of both as screenshots, tech packs or links, again with any notes in a Word or PDF Doc as an [email](#) or [WhatsApp](#).

You can find all the fabrics & colours available to select from [here](#).

In 2-3 working days, you'll receive an invoice with questions answered. This invoice is only payable when you're ready.

Notes

1. We create patterns using digital 2D auto CAD software, far more accurate than paper patterns allowing minor changes to be made instantly.
2. Every style in our collection has been shot in size small.
3. Top Legging or short sets may be ordered as seen or you can choose a mix & match of different tops, leggings & shorts
4. Any Design can be modified in any way, for example, make a waist on a bottom higher or lower, add pockets, etc.
5. You're only ever be charged the prices shown; no additional costs or surcharges will be added. *

* Custom branding & deliveries are chargeable.
