ACTIVEWEAR IN A NUTSHELL

This Guide offers the simplest & fastest way to start your own Active or Yogawear brand using high-grade Luxe quality recycled fabrics offering different degrees of compression, all being squat proof.

Whether you're selecting to work with your own custom designs or some of ours, it's all quite simple these days to get up & running working from home in a couple of months max.

As we know, selecting a manufacturer can be a nail-biting experience as nobody wants to pay more than needed, nor wait months for orders to arrive. With fabric in our hands, ready to cut, bulk orders are being prepared ready for pick up by DHL within four weeks.

We import our fabrics via weekly flights from Carvico in Italy, such as Vita Power, a fabric blended using Xtra Life Lycra & ECONYL[®] Yarns, REPREEVE[™] from the U.S.

At any time, you can always come back & click the links below to speak to a specialist with any queries you may have & want to discuss.

[WhatsApp](#)

SUSTAINABILITY

By choosing us as your Manufacturer, you can rightly claim your brand as sustainable & eco friendly, produced with a low carbon footprint. Virtually all the fabrics have been upcycled from salvaged ocean waste, such as reclaimed Nylon fishing nets & discarded plastic bottles, keeping our oceans that much cleaner.

MOQ

Minimum Order Quantities

We offer a low MOQ of 30 units per style, 5 per size & colour & 300 units or 150 leggings & sports top sets in total.

For example, a selection of 6 designs in several colours &/or prints in up to 5 sizes.

Bulk lead times will be confirmed when you place your order.

Read more about our [minimum orders](#)

COSTING YOUR COLLECTION

To price your collection, we only require your designs you want produced in what fabric/s, in plain or print.

If you're selecting a mix of your own custom designs & some of ours, contact us via the links below & we will assist.

We offer three ways to hand over. Select which way suits you best & should you have another way you feel more suitable, use it.

1. By far the most popular way is by adding screenshots, tech packs, or line drawings with some notes on any changes you want implemented as a Word or PDF Doc sent via [email](#) or [WhatsApp](#)
2. When selecting designs from our Ready To Go Collection, add the code of each design to this [form](#) & send back via [email](#)
3. If you have some designs on your Mac or P.C. you want to send over; you can use our [Drag & Drop](#)

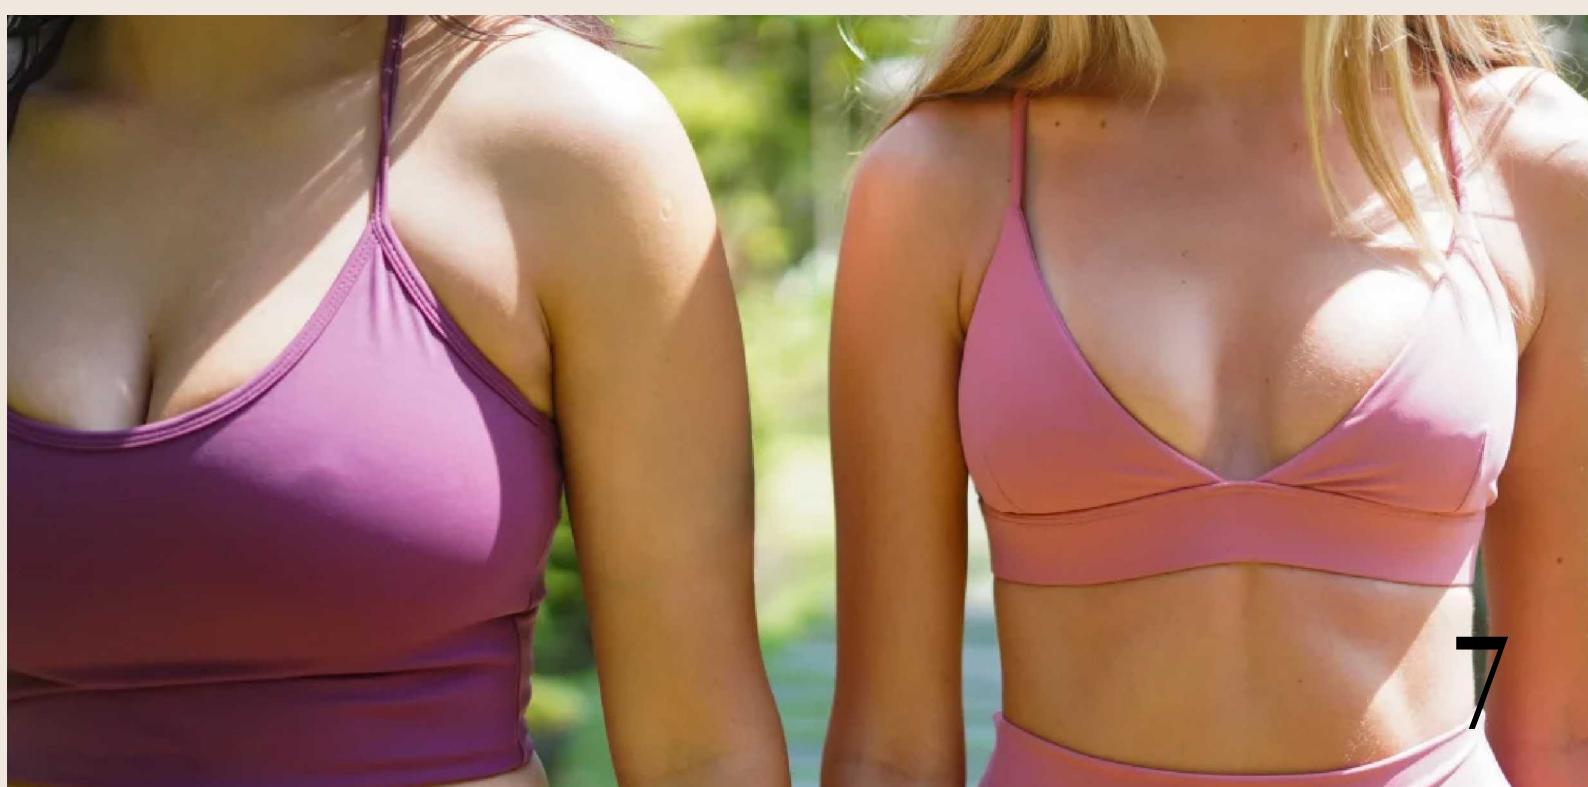

Upon receipt, we will send you back our best wholesale price in a few days, with any questions answered.

LOWEST PRICES

Since we own the only Tax-Free license in Bali, we save 40% on production costs while adding high-quality recycled fabrics from the U.S., Italy & Korea. All other suppliers on the island will have to add these huge costs to any purchase order raised..

Notes

- Our invoice values for an order of 300 units will only buy you 150 from any other Bali Active supplier. Get an idea of how we price in our latest 2023 [Ready to Go Collection](#)
- You can expect to mark up around 400% on the prices we will offer.

CUSTOM MADE ACTIVEWEAR

It is imperative when assembling Activewear that machines optimized for handling the individual sections of each article be used. Different machines are used in sections such as around the ankle, inner seams, around the waist, and under the bust to ensure that they never break, crack, or pucker. Once complete, they will be able to handle any workout, regardless of its intensity, with the right compression and flexibility.

Patterns are created digitally using 2D AutoCAD software, far more accurate than traditional paper patterns.

2023 READY TO GO COLLECTION

Our latest collection of ready to go designs were assembled with our in-depth knowledge of what's trending, selling hard & fast for the summer 2022 season.

If you're seeking some inspiration, click the video below to see all the designs fitted on the models &/or download the Catalogue inc prices [here](#)

CUSTOM BRANDING & ACCESSORIES

To brand your collection, we will require your logo, which we lay out & send back to you for your approval, including sizes and washing instructions. We also produce custom branded elasticated Jacquard & any packaging requests.

Allow 3 weeks to process & land.

Notes

For placement approval, we produce your sample heat presses in black and white using our in-house printer. When it comes to bulk orders, we import your heat presses printed and produced on larger higher-grade machines.

We require heat presses in our hands prior to processing your bulk order.

Read more on [Branding & Accessories](#).

SELECTING FABRICS

The most important decision you will make is your choice of fabrics.

We offer several fabrics with different degrees of compression, allowing you to select the most suitable ones for the market you're selling into. For example, Yoga & Athleisurewear brands require a fabric that offers good flexibility with Activewear brands requiring ones that provide greater compression.

We suggest purchasing a fabric pack to feel the textures & strengths of all of our fabrics, or simply request a call back with one of our specialists to assist.

See the [huge array of fabrics](#) we hold in stock & others we can import for you on request.

ADDING PRINTS

By far, the majority of custom print requests are printed overseas using Italian [MS machines](#) due to quality & colour accuracy being far superior to anything available in Bali.

Most buyers now purchase their prints from online vendors such as [Shutterstock](#). This reduces a task that can be both costly & time-consuming to one that can be completed in one hour or so at a minimal cost.

Read more on how to add custom digital prints [here](#)

MOCKING UP YOUR DESIGNS

Once you have priced your designs & paid for your samples, we mock up your designs in your selected colours &/or prints free of charge, allowing you. a better visual representation of what your final collection will look like.

Example Mock-Ups

See a [full mockup](#)

STARTER PACKS

Any starter pack offers you a huge advantage in knowing the quality you can expect your orders will arrive & how well our Activewear fits the body.

Inside each pack, we have added some elasticated jacquard and additional heat presses, both of which can be branded + a swatch of each fabric on our website & their corresponding laser copy colours cards. Feel the different textures of each fabric, know the amount of compression they offer & see all the colours in stock or to be imported.

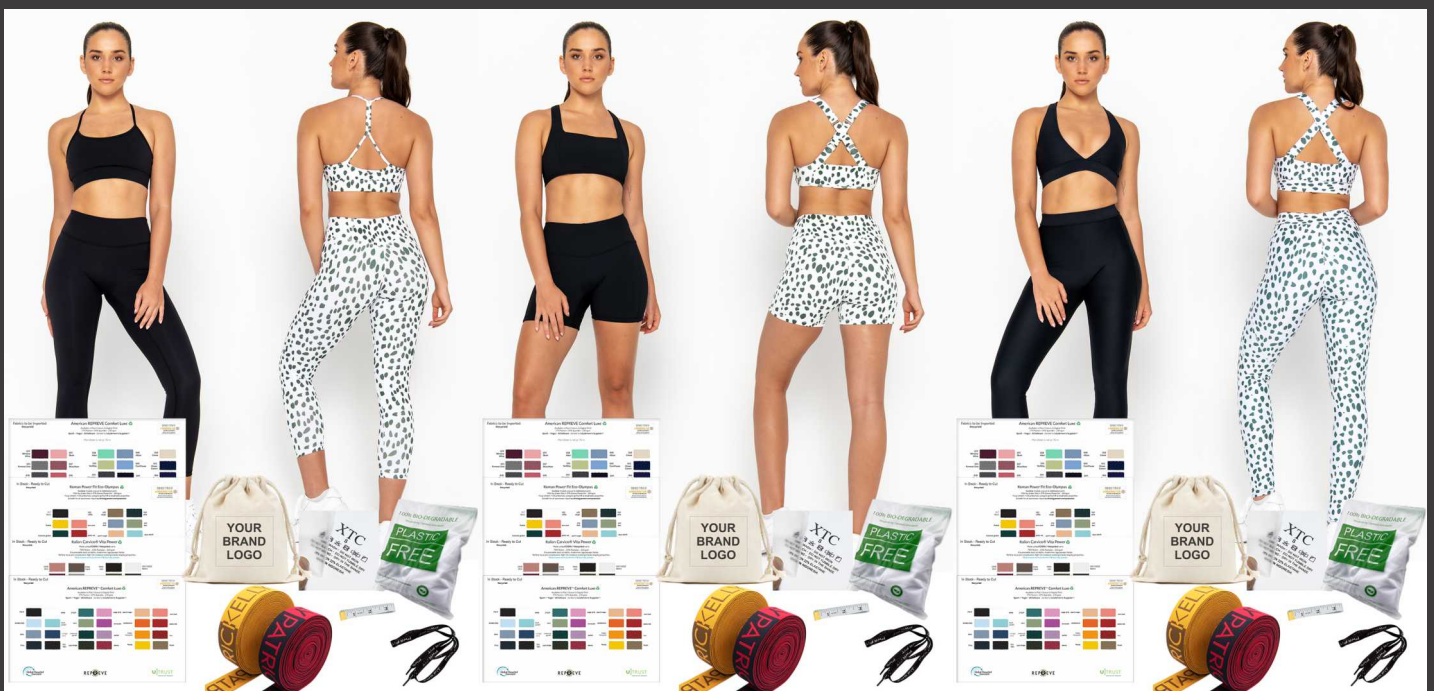

Probably the best investment you will make.
Price includes express courier to your door.

BODY SIZE GUIDE

CIRCUMFERENCE'S

You may require someone to assist you.

A. BUST

Wrap the tape around the fullest part of the bust.

B. UNDERBUST

Wrap the tape directly under the bust.
Stand straight with arms to the side.

C. WAIST

Wrap the tape around the narrowest part of the waist.

D. HIP

Wrap the tape around the hip's fullest part,
keeping your feet together at the crotch level.

Measuring tips

Use a soft cloth tape & fit close to the body.
Don't flex when measuring
& keep fairly straight but not too rigid.

We create our patterns digitally, using state-of-the-art 2D auto CAD software, far more accurate than paper patterns, allowing quick and easy changes.

Please check the size guide to ensure our grading suits your target audience.

[International Body Size Guide](#)

TIPS & TRICKS

- Most brand owners choose fabrics from our stocks, as importing fabrics is more timely.
- Have your brand logo to hand as this will be used to brand each design. As heat-presses take three weeks to import, get this sorted first.

CONTACT US

So, we hope this has helped you in your decision making & trust we have covered all the main points you'll need when starting your own activewear brand. Still have some questions?
