ACTIVEWEAR BALI

A close-up photograph of a woman's back and shoulders. She is wearing a light pink, V-neck sports bra with thin straps. Her blonde hair is visible at the top. The background is a soft-focus outdoor scene with green foliage.

YOUR OWN BRAND IN 4 WEEKS

Our 2023 Activewear Ready to order Collection was assembled using the best-selling shapes & our knowledge of what's trending well into Spring 2023.

Any design can be produced in any fabric, colour or print, making the possible combinations almost limitless, with bulk orders ready for dispatch in 4 weeks.

Once you have selected your styles, we add your Logo, sizing & washing instructions as a heat-press to the inside back of each article, used to brand elasticated jacquard under the bust or around the waist as well as packaging.

Read more on [Logos & accessories](#)

Should you require any small alteration, such as making the waistbands higher/lower, adding pockets or mesh lining, etc., in most cases, we can assist.

You can see most of the designs shot in our Campaign [Video](#)

MOQ

Minimum Order Quantities

We offer a low MOQ of 30 units per style, 5 per size & colour, with 300 units in total or 150 legging & sports top sets.

For example, six designs across several &/or prints in up to 5 sizes.

Producing Samples or Direct to Bulk PO

Even though our designs have been patterned to international body sizes, checked & fitted on a Fit Model and graded up from size XS up to 3XL, some clients still want to see actual samples. If that's you, then that's OK. We charge two times our estimated price, plus a USD 30 management fee per style, all-inclusive to the finished articles, including one heat press logo. For example, a legging priced at \$19 USD, is charged at $2 \times \$19 + \$30 = \$68.00$. Allow 2-3 weeks extra for the samples to be produced.

However, many are now requesting to skip sampling altogether, placing orders direct to bulk, being far more popular due to the speed in producing their orders and savings incurred. Then, should you select your colours from our stocks, from the day you approve our prices in 4 weeks, your order will be packed in biodegradable bags, ready for dispatch.

When ordering direct to bulk, you are advised to check our [Body Size Guide](#)

If selecting colours or prints to be imported, we require an additional 2-3 weeks.

[Contact our team](#) to get your selected designs priced or ask any questions.

2 Ways To Work

With your selected designs saved as codes, knowing what fabrics, colours & or prints you want produced in, below are two options to price.

- 1. Selecting from our Ready to Go Designs** Send over your order via our [Bulk Order Form](#) or [Sample Request Form](#).
- 2. Adding some of your own custom designs to ours** – Fill in the form as above & send them as screenshots, tech packs or links with notes added in a Word or PDF Doc via [Email](#) or [WhatsApp](#).

In 2-3 days, we'll get back to you with your prices & any questions answered.

Lowest Prices

Owning the only Tax-Free license in Bali to import fabrics saves us 40% on production costs. As all other Bali Active producers must add these costs to your invoice value means our prices will always be around 40% cheaper even using higher-grade imported recycled fabrics

As you're in this to make a profit, always take the time to compare our prices to other producers & not forgetting to add luxe quality imported fabrics. You're going to find other suppliers charge approximately 23 USD for tops & 30+ for leggings, much higher than we do.

Our invoice value for 300 units only purchases 200 from any other Bali supplier.

Examples of all-inclusive Prices

Plain Tops & Shorts

\$16

Printed Leggings

\$22

Printed Tops & Shorts

\$18

Plain Leggings

\$22

The prices above are produced using recycled high-grade Italian, American & Korean Power fit fabrics.

Note

Expect a mark up 4 X our price to retail.

Example - Sports top @ \$16 retails for \$59 or more.

Mocking up your Designs

Once you have made a payment, we mock up your Collection free of charge.

Visualizing your designs in the colours &/or prints in virtual 2D gives you a much better idea of what your final Collection looks like.

Selecting Fabrics

One of the most important decisions you'll make will be the fabrics & colours you select to produce them in and any prints you're working with.

We always hold at least 30,000 meters of the latest trending colours in stock, making selecting stock colours the most popular way to work. Any colours not in stock can be imported via weekly flights to Bali.

We offer several different degrees of compression, allowing you to select the most suitable fabrics for the market you're selling to. For example, Yoga & Athleisurewear brands require one that offers good flexibility, with Activewear brands requiring greater compression.

We suggest purchasing a [fabric pack](#) to feel the textures & strengths of all of our fabrics, or simply request a call back with one of our specialists to assist.

See the [huge array of fabrics](#) we hold in stock & those we can import on request.

Adding Prints

Adding custom prints to an activewear collection is something we handle for many of our clients. The majority of custom print requests are printed overseas using [Italian MS machines](#) due to colour accuracy & quality being far superior to anything available in Bali. Allow 2 to 3 weeks to process & land.

If you're short on time and seeking a speedy solution, we print via sublimation in Bali using Eco-Olympus Power Fit, recycled Poly from Korea

Allow just 2-3 days to process, whether samples or bulk.

Note

Most brand owners purchase prints online, reducing a task that's both costly & time-consuming to one that can be completed in one hour at a minimal cost.

Read our section on how to add [digital prints](#)

Notes

- You'll only ever be charged the prices shown; no surcharges added.
- Only Custom branding & deliveries are charged in addition
- Tops & bottoms can be ordered as seen or as a mix

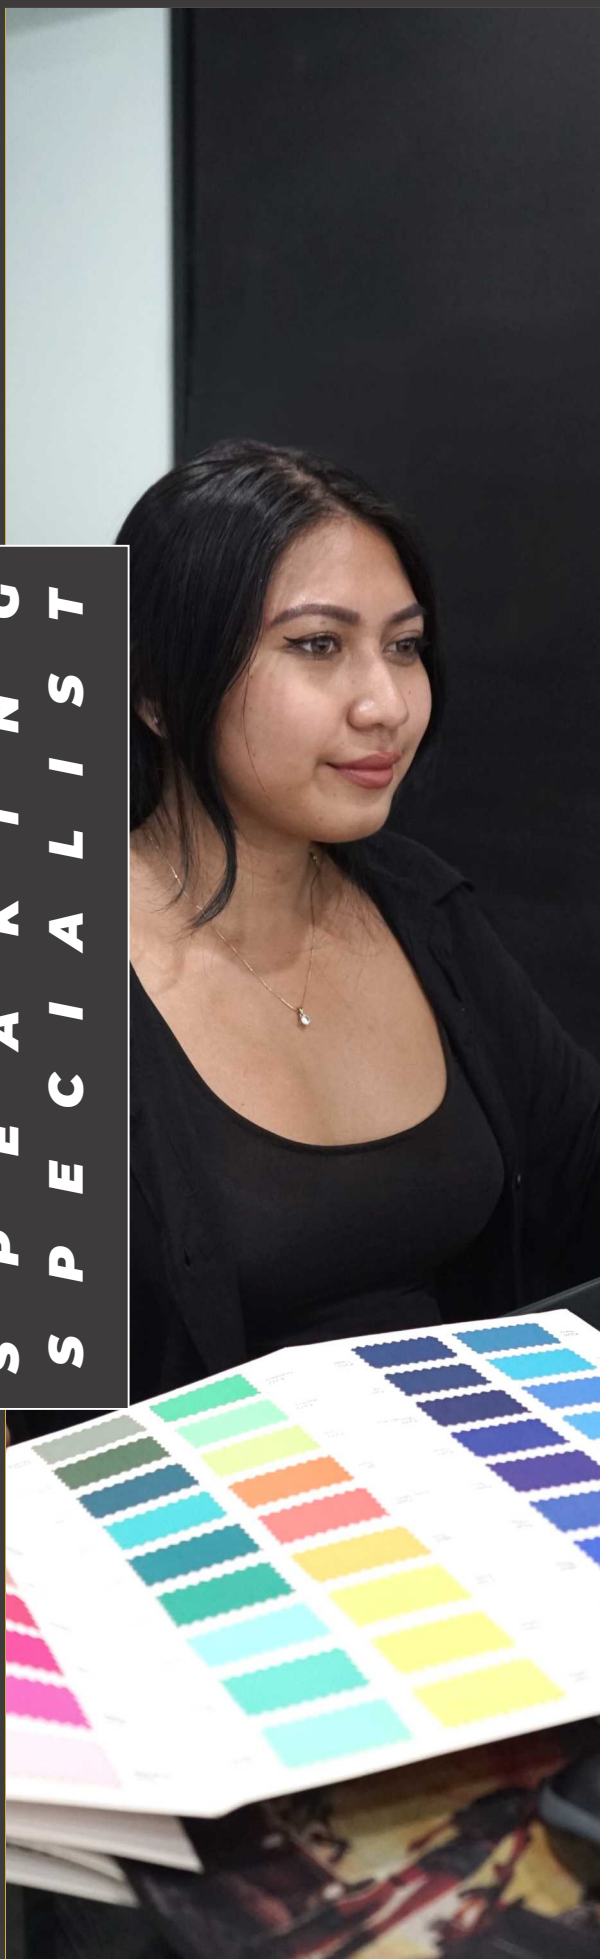

Dispatch & Delivery

We dispatch your samples & production orders via FedEx or DHL. Both couriers arrive daily at our office, picking up & dropping off packages. Allow 4-7 working days to your door.
