

Activewear Bali Guide 2023

ABOUT US

This guide aims to assist those seeking greater financial independence in selling their own luxury sustainable Activewear, Swimwear or Yoga brand.

Producing for hundreds of high-end brands worldwide, we are the longest-running Activewear factory in Bali dedicated to sustainability & quality.

We employ a team of over 150 in-house machinists, all with at least ten years of experience, + 60 Activewear and Swimwear specialists assembling samples as our clients expect them to arrive in the first batch of Sampling.

Our fabrics are primarily imported from [REPREVE®](#) & [Lycra](#) in the United States, [ECONYL®](#) & [Carvico®](#) from Italy, certified by [GRS](#) as recycled and by [OEKO-TEX®](#) as eco-friendly.

“LOVE YOUR BODY, LOVE THE PLANET”

We know the planet's resources aren't infinite; it's why we use recycled fabrics in virtually 100% of our products, upcycled from salvaged fishing nets & plastic ocean waste, keeping our planet & marine life that much healthier.

Every article is packaged individually into a [biodegradable](#) bag and dispatched via our company DHL account to your designated address. Our [dyes](#) are also eco-certified by OEKO-Tex.

We offer you and your brand a production process with a low carbon footprint allowing you to rightfully claim your brand to be both environmentally friendly, sustainable & Eco-friendly

Recycled Fabrics

MOQ.

We offer a low MOQ of 300 pieces per bulk order, 30 pieces per style and three pieces per size, colour and print. If you would like to mix & match our designs with yours, the MOQ is the same.

For those looking to Mix & Match some Activewear & Activewear, the MOQ is 500 pieces.

Production & MOQ

WE ARE TAX-FREE

Price-wise, nobody beats us. We are the only bonded Tax-Free company in Bali, allowing us to import high-grade Italian and American fabrics, saving 35% on the import tax that all other Bali manufacturers must pay.

Our prices incorporating imported recycled fabrics will still be cheaper than any other Bali Activewear producer, even they will be adding local lower-grade local fabrics.

LET'S GET STARTED

Whether you're building a brand from scratch or adding to an existing range, all we require to get you up & running in your own sustainable Activewear brand are the designs you want to produce made in your selected fabrics in [plain](#) or [print](#).

With the possible combinations of designs virtually limitless & the vast array of fabrics & colours you can select, means, once assembled, your collection can easily be as original & iconic as any brand you care to mention.

Note

Only once you have approved your prices do we need to know the exact colours & or prints you want your designs produced in.

STEP ONE

Price your Designs

Three ways to handover

1. CUSTOM DESIGNS

Manufacturing custom-made Activewear for over 30 years has given us all the skills required to produce mostly any design unless they are overtly complex due to the time required to produce, making them none viable for retailing. We produce around 30 new samples in custom Activewear designs every day. However, there is always a queue into patterns, so allow as much time as possible to get your stylers right as expected in the first round of samplers.

Most popular: Sending over your designs as a screenshot with any notes on changes you want to implement is all we require to understand your concepts sent via [email](#) or [WhatsApp](#) in Word or PDF format

Tech packs or clear line drawings are also workable.

2. READY TO ORDER DESIGN

You can see our latest 2023 Ready-to-Order designs [here](#).

Simply select the styles you love and add them to this [form](#) to request samples or place an order.

Take note.

Any of our designs can be edited for a fee of USD 30, for example, by making a bum coverage more moderate or cheeky, adding cups, wires, etc.

2023 Catalogue

3. MIX & MATCH

You can select to combine some of your custom designs with some of ours. Once done, please [email](#) us your screenshots and our product codes. Confused? See an example handover [here](#).

In 2 to 3 days, you'll hear back with our most competitive price for a premium quality product.

You will find more on how to do this on our getting started page.

Getting Started

STEP TWO

Selecting Fabrics & Prints

We offer the largest selection of Active and Yogawear fabrics in Bali, including over 30,000 meters of recycled Italian and American fabric in stock in 83 colours that can be cut the day after your order is received, rather than waiting weeks for fabrics to be imported. Additionally, we offer some of our own unique blends, such as Comfort Luxe, Eco Olympus and Eco-Flex, all offering different degrees of compression.

We are the only company in Bali offering a true digital print service on recycled Nylon. All other Bali producers will only offer a sublimation print service on Vita PL Polyester, which is not nearly as soft as printing digitally on REPREEVE®.

As we import prints using our tax-free exemption, you'll find the prices we offer for printed designs even lower than what others offer printing using lower-grade machines in Bali.

See all the colours we offer on our Fabrics page on the website

[Plain Colours](#)

[Adding Prints](#)

FABRIC SWATCH PACKS

Selecting the right fabric with the correct amount of compression and flexibility is essential to the success of any Active or Yogawear collection. These fabric swatch packs do just that, allowing you to feel the fabric's texture and select the colours using the enclosed laser copy card.

DHL to your door, USD 65

STEP THREE

Sampling

We run a skilled sampling team of sixty sample specialists, including pattern makers, tailors and sewists, with extensive experience producing Active and Swimwear samples.

In the main, customers select the fabrics and colours from our stocks as Importing colours can take several weeks to arrive. Importing plain colours is more timely & less so when importing your own custom prints.

Skip Sampling - Direct to Bulk

Once we are clear on your requests, a Activewear specialist will be assigned to you. Throughout the entire process, she will answer any questions, either by [email](#), [text](#), or [phone call](#), until the samples are in your hands & approved.

Would you like to skip Sampling and move directly to your bulk order, saving time & money in the sampling process?

You can read more on how to do this & all about the sampling process on our Sampling page on the website.

Sampling

ONE SAMPLE SET OR TWO?

Once ready to place a bulk PO, we require your approved samples sent back via courier unless you requested two sample sets. If you did produce two sets, then the set in our office is used to compare against the first cuts in your production.

Since we only charge wholesale for the second set, making two sets often costs the same as producing one, as you save on courier fees, import taxes, and a week in the production process.

Please take note

Orders for 2023 have again reached record levels. With your samples approved, please send them back to us or inform us of any edits needed.

With so many brands selling out as fast as we produce, it's more than important that we receive your bulk orders as soon as possible to keep promised delivery dates.

The sampling process

If you're selecting fabrics from our stock, samples take four to six weeks, depending on the volume of orders we have on hand.

If selecting to use our ready-to-order designs, the average turnaround time is three to four weeks.

Requesting colours or prints be imported.

As it now takes up to three months to import plain colours from Carvico, we mostly place orders with REPREEVE US Reclaim Prime fabrics for both plain & Print, as they typically arrive within 4-5 weeks.

The production process

Bulk POs will be ready for dispatch within four to six weeks if you select your colours from our stock. If you're requesting colours imported, timelines are on request.

TYPICAL HANDOVER

Once you have selected your designs & fabrics, you're ready to hand them over to us to be priced. You can do this using our website called Costing Your Collection. Once received, you'll hear back from us with your prices in a few days. If acceptable & samples paid, we mock up your collection free of charge.

Below we have added a typical handover sent to us. The brand owner is looking to use three plain colours & one print purchased from [Shutterstock](#).

Fabrics & Colours:

REPREVE Hawaii (Colourful Abstract) →

Reclaim Prime (Strawberry Red)

Reclaim Prime (Nero)

Generic Lurex (Forest)

We then sent back a Mockup similar to the one below showing how their selected designs look in their requested colours & print. The example below is a partial Mockup. The full Mockup you will receive will display all styles in all colours & prints.

MOCKING UP YOUR DESIGNS

TOP 045
SHORT 046

TOP 053
LEGGING 054

TOP 055
LEGGING 056

TOP 051
LEGGING 052

Once you know which styles you will use in what fabrics in plain or Print, we mockup your Collection free of charge, allowing you to see the designs you selected in the right colours & or prints.

As this is a free service, costing nothing more than some time putting it all together, it means many of our clients handle this well before launching their sales campaign.

BRANDING & ACCESSORIES

Adding high-quality accessories to your Collection plays a huge role in each item's final look, increasing sales & ultimately, your success.

We add your branded logo as a heat press to the inside and back of each article. We can also brand your logo to the outside of leggings or sports tops or replacing conventional elastic under the bust or around the waist with branded elasticated Jacquard.

Take Note

The longest delays in production are mostly caused by the importation of anything, so discussing anything before or during the sampling process with your merchant consider a priority.

Read more about the accessories we offer using our [Accessories page](#).

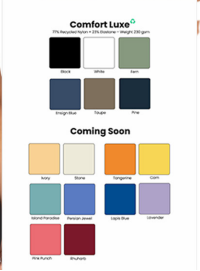

Branding & Accessories

STARTER PACKS

If it's your dream to run your own sustainable and eco-friendly Active or Yogawear brand, then these starter packs offer you an inexpensive way to get started. Inside each pack are all the tools and resources you'll need to create a collection that looks amazing on any website or store.

These packs have helped many entrepreneurs launch their own brands from scratch.

If you want to know the actual quality of our products and how we fit and grade, then these packs offer a fast and easy way to get started.

CIRCUMFERENCE

YOU MAY REQUIRE SOMEONE TO ASSIST YOU.

A. BUST
WRAP THE TAPE AROUND THE FULLEST PART OF THE BUST.

B. UNDERBUST
WRAP THE TAPE DIRECTLY UNDER THE BUST. STAND STRAIGHT WITH ARMS TO THE SIDE.

C. WAIST
WRAP THE TAPE AROUND THE NARROWEST PART OF THE WAIST.

D. HIP
WRAP THE TAPE AROUND THE HIP'S FULLEST PART, KEEPING YOUR FEET TOGETHER AT THE CROTCH LEVEL.

MEASURING TIPS

USE A SOFT CLOTH TAPE & FIT CLOSE TO THE BODY. DON'T FLEX WHEN MEASURING & KEEP FAIRLY STRAIGHT BUT NOT TOO RIGID.

SIZE GUIDE & DIGITAL PATTERNS

We create patterns using state-of-the-art 2D AutoCAD digital software, providing much more accuracy than traditional paper patterns allowing us to make incremental changes and grade up or down on requests almost instantly.

We suggest checking our size guide to ensure our specs and grades fit the market you're selling to. If you skip this step and your samples arrive too large or small, you will be charged for remakes.

In almost all cases, if your samples arrive obviously different to the designs in your handover, we remake them free of charge.

You can see our size guide on the main header on the website.

[Size Guide](#)

DELIVERIES

We dispatch samples & production POs via FedEx or DHL.
Both arrive daily, picking & dropping off packages.

Allow 4-7 working to arrive.

You can read more on how to send samples or accessories
& how we dispatch orders on our [Delivery page](#).
