ACTIVEWEAR BALI

PRINT GUIDE

Adding Activewear Prints

You don't have to draw your own print. Stock libraries sell thousands of ready-made motifs, formatted for digital print. We use Shutterstock for this example. Costs USD 25 for 10 motifs or USD 2.5 per motif. You may also like to check **Adobe Stock** or **Vector Stock**.

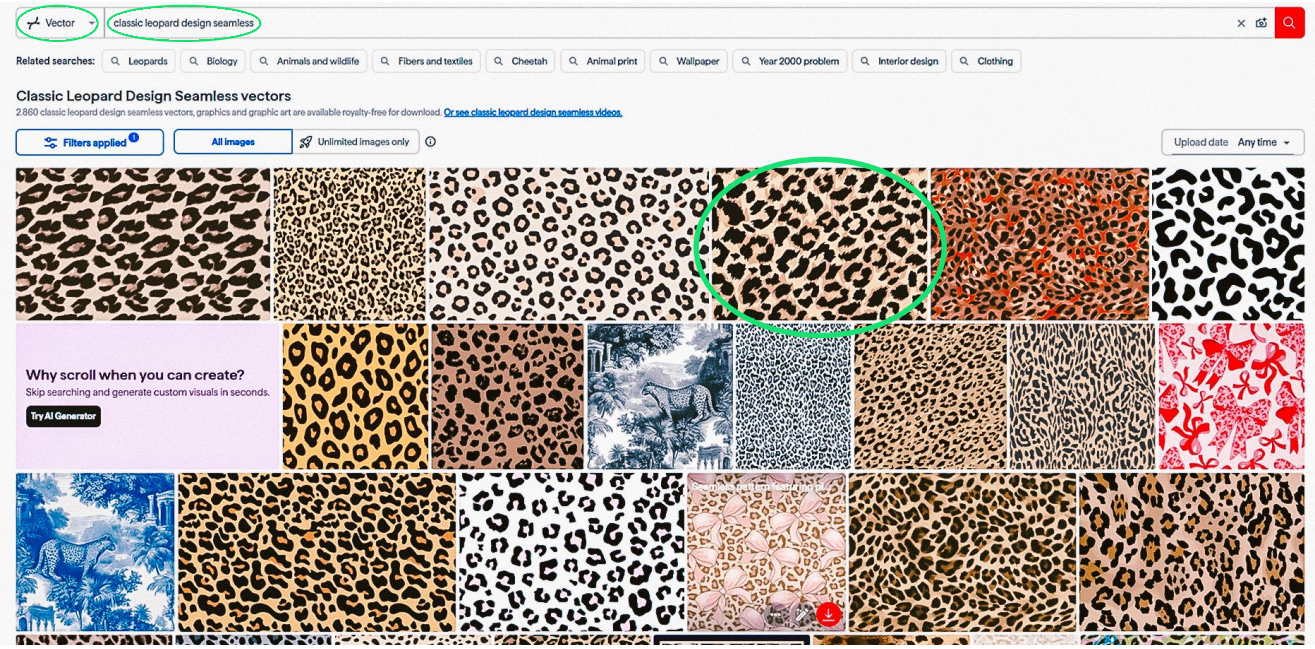

Below you will find some easy steps on how to find almost any motif in the correct format.

01 Selecting Motifs

Simple Steps

1. **Open Shutterstock**
2. **Add your search term**
3. **Select your motif**
4. **Purchase.**
5. **Send to us to check.**

For the following example, we added "**abstract seamless print**". Always add "**seamless**" to your search keywords, as seamless prints allow us to print your motif without any joins.

THE RIGHT FILE

BEST

EPS or SVG

Vector files, which stay sharp at any size.

ALSO ACCEPTED

JPG, PNG, TIFF, PSD or PDF

At 300 dpi or more.

COLOUR

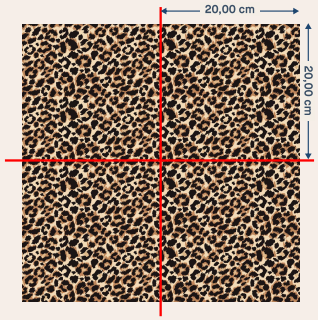

Pantone colour codes

It helps to reference the most prominent colours in each print using Pantone colour codes.

02 Check It Repeats

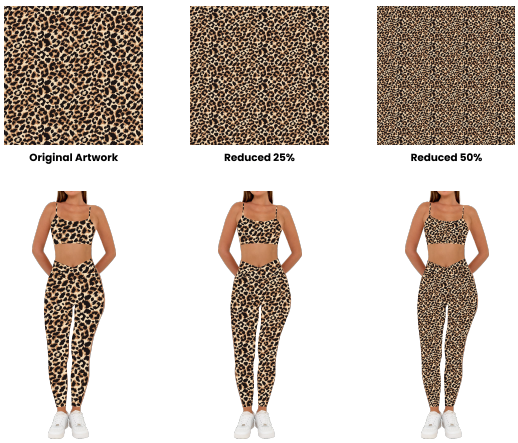

A seamless repeat is a tile of artwork whose edges match, so it runs across the whole fabric with no visible join. Most motifs repeat every 15 to 20 cm.

Example: As you can see, the print motif below repeats seamlessly both left-to-right and top-to-bottom.

03 Choose Your Scale

Below two examples of how we place your motifs on activewear and how they can be scaled. This is a great way to see more clearly what your final collection looks like.

WHAT HAPPENS NEXT

Our graphics team checks your file and, in most cases, helps with layout free of charge. Strike-off options and prices are on our **Digital Prints** page.

Your designs stay confidential and are never reproduced for other clients.

Need Help With Your Print?

Still unsure about prints, or haven't found your artwork yet? Get in touch and we'll help you. You can send us your file through our website, or message us on WhatsApp.
